P. W. MADSEN & Co.,**50 MAIN STREET.****TELEGRAPHIC NEWS****Sarah Married.**

London, 5.—Sarah Bernhardt and a Greek gentleman of position, named Damalia, were married in St. Andrew's Church, Wells. Sarah continues her theatrical career.

Damalia and bride perform here in May. Damalia is a fine looking middle aged man, said to be tolerably rich. His wife is worth 12,000,000 francs. Bernhardt gave no previous notice of the wedding. At 8 this morning a gentleman called at the church and said he desired to make arrangements for a marriage. The official informed him that a license was necessary. The gentleman left the church to procure the license, and having obtained it, returned accompanied by Bernhardt. The latter wore a close fitting seal skin cloak, trimmed with fur. A French lady and gentleman and officials of the church were the only witnesses.

Cabinet Changes.

Washington, 5.—The nominations of Teller and Chandler were generally expected, and therefore created no surprise. There is no doubt will be confirmed without reference to a committee, but there will be some strong opposition to Chandler from the democratic side. Several democratic senators have already openly declared they will oppose Chandler, but it is thought republicans will all vote for him. Don Cameron voted against him when he was nominated for solicitor-general, but in view of Cameron's close relations with the Administration it is generally believed he will now vote to confirm Chandler, and in the opinion of some leading democrats Davis, of Illinois, will also vote for Chandler, so that if all the democrats should oppose him he is likely to be confirmed.

The Senate unanimously confirmed Senator Teller's nomination and referred the others.

Washington, 5.—The President has nominated Henry M. Teller, of Colorado, for secretary of the interior; Wm. E. Chandler, of New Hampshire, for secretary of the navy; Wm. H. Hunt, of Louisiana, envoy extraordinary and minister plenipotentiary to Russia.

The American Prisoners.

Washington, 5.—In relation to the House resolution of January 31st concerning the arrest and imprisonment of American citizens by authorities of the British government, the secretary of state writes that he has the honor to inform the President that for some time past active negotiations have been conducted in a spirit of entire friendship, and it affords the secretary of state pleasure to acquit the president that on the 2d instant information was received by the department of state that all American citizens held as prisoners in Ireland, except three, have been released, and that since that date further information has reached him that O'Connor, Hart, Walsh, Dalton and White are now in prison. Negotiations are still being conducted with a view to the release of the remaining prisoners, and the hope is entertained that the result will be satisfactory and honorable alike for both nations.

London, 5.—In the Commons this afternoon Gladstone stated that negotiations with the government of the United States, respecting suspects of American nationality, continue. To the representation made by Great Britain to the United States, respecting certain Fenian literature, no answer had been received. The announcement was received with an ironical cheer from the conservative benches. Gladstone also stated that the government was sensible of the gravity of the condition of Ireland, but it must select its own time for proposing any desirable measures. It was a social and not a political revolution that was in progress. The Land League started when conservatives were in power. Though agrarian crimes had increased, he believed the effect of the land act is extending. The state of Ireland was unprecedented for fifty years. There is a strong presumption that the influence of the Land League is behind the awful crimes committed there. He cited a letter by Healy calling the government a set of brigands. Northcote said Gladstone's speech is disappointing, alarming and unsatisfactory, because it shows its vacillation. Fawcett, postmaster general, said he cannot adopt the suggestion to discontinue the practice of steamers calling at Queenstown for mail.

The Times in a leading article on America and the imprisoned suspects maintained the right of every state to protect itself against alien or domestic enemies to society. It refers to General Grant's pretensions, which the general asserted in a deputation which called upon him in New York, and says: It is obvious that government, while giving no sanction, direct or indirect, to the exaggerations of irresponsible American politicians, can fairly meet the wishes of the government of the United States without impairing the securities of the protection act. It has no doubt the United States will be informed that favorable consideration will be given to the case of any citizen of the United States who will undertake, if released, to leave the country.

PILES! PILES! PILES

**A Sure Cure Found at Last! No
 One Need Suffer!**

A sure Cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. William (an Indian Remedy), called Dr. William's Indian Ointment. A single box has cured the worst chronic cases of 25 or thirty years' standing. No one need suffer five minutes after applying it. A wonderful soothing medicine. Lotion, instruments, and electuaries do more harm than good. William's Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed), acts as a poultice, gives instant relief, and is prepared only for Piles, itching of the private parts, and for nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. William's Indian Pile Ointment: I have used scores of Pile Cures, and it affords me pleasure to say I have never found anything which gave such immediate and permanent relief as Dr. William's Indian Ointment.

For sale by all druggists or mailed on receipt of price, \$1.00.
